THE BELLE GLADE NEWS, BELLE GLADE, FLORIDA

CAFE IS MOVED

Hooks Cafe, formerly located in the Gold block in Pahokee, was moved across the street Tuesday night to the location formerly occupied by Papa Joe's bar. The Postal Telegraph company office will move into the place vacated by Hooks and Dad's bar will be enlarged to take in the room to be vacated by the telegraph company.

Florida's 1941 automobile tags will be red and white—red figures on a white background, the same as were used in 1939. It was announced this week by Commissioner D. W. Finley. The plates will be made at Raleigh by state prisoners.

Wish somebody would find out why a moth will pass up the coats and suits hanging in the closet and pick on the one suit stored away in a moth-proof bag.

With a \$5,000,000 sewer project for greater Tampa and a \$2,000,000 water extension project almost ready, Mayor Chaney asked residents of the city proper and those of the thickly populated suburbs to give serious thought to annexation.

Clyde May, vice-president of the Florida Orange Festival of Winter Haven, succumbed to a heart attack last week.

Here Are a Few Things That Happened 15 Years Ago In The Glades and Were Recorded by The Everglades News

G. A. Watkins tells about when he got a Ford car several years ago and started to learn to drive on the rough and crooked track that served as a road. For \$1 he was going to take a man to Pahokee in the car. When they had gone about a mile, the passenger handed G. A. two dollars and said, "I'll walk the rest of the way."

F. A. "Dick" Lefka was in Sunday from Gladesville district where he is employed. Dick was engaged on the boat "Scimitar" and the mail boat until a few weeks ago.

C. E. McChirch is building a new house for one of his boys on the lake front.

Master Ernest Lindner entered a number of his little friends last Saturday this birthday with a marshmallow roast.

A miscellaneous shower was given at the home of Mrs. W. H. Vann, Thursday afternoon in honor of Mrs. J. W. Cochran. Many beautiful gifts were presented to the bride.

School did not begin in Belle Glade Monday because the teachers did not arrive.

Messrs. May and Kroon of the experiment station have a white elephant on their hands, in the form of an unidentified horse, which with the aid of several passing motorists, they pulled out of the canal Sunday.

The Moore Haven schools opened Monday, August 31, with a total enrollment of 228. This is within a dozen of as large enrollment as the school ever had.

The floating bridge in Gladesville district owned by Bryan & Holloway, cut nine miles of canal in August and it is expected to cut ten miles in September and finish the first week in October.

Appointment of J. E. Cochran as manager of the Pahokee Drainage district has been announced today which said that Mr. Cochran has accepted the appointment and begun his duties.

Jack Taylor says Moore Haven was ten years old, September 3.

Leona C. Gooding has taught the latest model and most complete clothes pressing outfit used by the

largest manufacturer of devices of this character.

A section of The Everglades News building having been destroyed in part, some of the printing office machinery will be moved into it this week.

Mrs. Jack Barrett and Mrs. E. A. A. Forbes have obtained plans for a 20-room hotel building, which they contemplate erecting on a lot on the site of the Glades Hotel.

W. J. Lammiman of Pahokee has bought the Highway Store at Canal Point and has taken over the store. Mr. Lammiman will operate the store as a hardware store, carrying a full line of goods and notions and groceries and sundries in which a large stock of goods is being carried.

C. G. Colburn of Belle Glades, connected with the western office of the Head Rubber company, was given at the home of Mrs. W. H. Vann, Thursday afternoon in honor of Mrs. J. W. Cochran. Many beautiful gifts were presented to the bride.

Reception in teachers in the Pahokee and Canal Point schools was given Tuesday evening at the home of Rev. and Mrs. W. J. Thomas on Pahokee road in Canal Point. Parents of pupils in the schools and the teachers of the two communities welcomed the teachers to East Beach and promised their cooperation.

Ice cream and candy will be sold Saturday afternoon for the benefit of the Woman's club at the post office. Bragman's, rate and check was in transit and I came near being indicted as an embezzler before I could raise sufficient funds to make the cashier's check good.

Guy Stogdall, manager, took Pahokee Stars baseball team to Key West and played three games and then went on to Havana.

A band of gophers was in town Saturday, coming in from West Palm Beach. Everybody wondered how they managed to get by Cape Sable Island who runs the ferry at 20 mile bend.

One of the prettiest parties of the season was the miscellaneous shower given on the lawn of Mrs. Hunsbome in honor of Mrs. Claude McElroy. A lovely bride, who was beautifully carried out after the program. Headed by Edith and Leona Jane, Mrs. Hunsbome brought a large clothes basket, containing the bride's hand and foot, which was a very beautiful and useful article.

W. J. Kilgus of Plant City presented the Kilgus good comedy show to the first top parking place property on the lake front between Canal Point and Pahokee. The property can hold up to 100 cars parking space. 11 acres of back farm land and 12 acres of sugar cane and 12 acres of orange and each of the 12 acres of late fruit may be arranged for in a deal with the trustees of the I. I. Fund.

Mr. and Mrs. F. J. Collier and two children of Kansas City are guests of Mr. and Mrs. Alva Grice. Mrs. Collier will go into business in Florida if she can find something to do.

Henry Kolstad, accountant for the Florida Sugar and Food Products company, returned Saturday night from a vacation trip of a few weeks.

F. E. Krivan, President of the Florida Sugar and Food Products company, is expected to return to his home in Chicago and Boston. He has been in Chicago and Boston for several weeks. He and E. company are interested in the project to build a new sugar mill.

Dev. A. J. York has returned from a three month journey through Nevada, Oregon, California, Washington and New Mexico. He says Florida has the best climate for him.

W. P. King, Mr. and Mrs. Edward King, Jr., Belle Glade, Fla.

A TYPICAL JERRY W. CARTER ANSWER TO THE ADVOCATES OF A TOTALITARIAN GOVERNMENT FOR AMERICA

Tallahassee, Florida, September 11, 1940.
Mr. Hitler
Attention: Subordinates in Charge: Lindbergh for President Club No. 1.
I. O. Box 242, Pala Alto, California.

Replying to your circular letter of August, 1940, soliciting my support, I beg to advise THAT:

Prior to the Hoover depression, I thought I was making money by buying and selling real estate operating on a margin, negotiating the resale of the property immediately. When the Hoover depression got through with me, all I had left was a wife seven boys—a household and several deficiency judgments against me. I was saved for me by the Florida Home Loan, heavily mortgaged, in a dilapidated condition, and the real estate was so badly we had to move out doors when it rained to keep from getting wet.

We were discussing the mortgage for the property for the next year annually. And he was threatening foreclosure and would have done so probably had it not been for the vast repairs necessary before the property could have been rented.

When the Hoover depression got through with me, all I had left was a wife seven boys—a household and several deficiency judgments against me. I was saved for me by the Florida Home Loan, heavily mortgaged, in a dilapidated condition, and the real estate was so badly we had to move out doors when it rained to keep from getting wet.

I called on My Brother and Mother and found out their banks had just gone through the annual closing process also and that they were helpless to help them, let alone help me.

Fortunately for me Mr. Roosevelt was elected about the time it looked as though I was hopelessly involved and gave me the guarantee bank deposit system and a Home Owners Loan Corporation and did not only take up the mortgage for me at five and one-half percent, but furnished me with a sufficient amount to put the home in good repair and allowed me to pay back the principal and the interest at a rate of one percent, what I had been paying was interest none but.

The benefits resulted that I personally experienced from these three acts alone of Mr. Roosevelt's administration, entitles him to my admiration, were it not for the fact that anything else for ordinary people like myself. However I and some well paid person could summarize part of acts that have been beneficial and a Godsend to the masses of the people who had never received any serious consideration by any administration prior to Mr. Roosevelt's. To my knowledge, he is the only person of these three who has been able to give the United States who had enough courage, backbone and intestinal fortitude of the non-kind and kind-hearted type, to take the burden out of the control of the speculators, gamblers and wildcaters and set up a Home Owners Loan Corporation and other similar institutions that jerked a knot in the tail of the shysters and boom sharks, often referred to as economic rapists, who have for a century been bleeding the masses of the people while by exacting enormous rates of interest and excessive profits.

President Roosevelt, recognizing the fact that we can today take less than forty percent of the population in conjunction with the modern labor saving machines, systems and services and manufacture and create and distribute more of all the necessities and luxuries of life than the whole one hundred percent could use if they all had bank accounts and could buy what they wanted, inaugurated the WPA for the purpose of giving employment to those whom labor saving machines and devices have displaced and enabled them to at least live instead of starve.

Through this and many other methods, he has taken the disease of the people out from under the ruthless domination of the parasitic rapist of this country, who hate Mr. Roosevelt for breaking up their profitable racket and are today opposing him on every hand. In my opinion, the rapist of the people should love Mr. Roosevelt for the enemies he has made. As to your circular letter, couched in the most evasive language, subtly advocating Mr. Hitler's world revolution: I am not in favor of abandoning our Free Democratic way of thinking any more.

CARD OF THANKS

We take this opportunity to express our sincere thanks to our many friends in the Glades for their expressions of sympathy during the death of our loved one. We shall always hold dear these expressions. We are deeply grateful for the friendship and loyalty shown during our hour of stress.

West Palm Beach, Fla.

Bus Companies Have Good Record

Tampa, Sept. 19.—(FNS)—Completing the statewide safety survey of bus operations in Florida, Asher Frank, director of the Florida State council, said this to many of the survey.

During the past 15 months, Florida buses have operated more than 2,000,000 miles, carried over 3,000,000 passengers, without one passenger getting killed or a bus driver charged with a fatality.

The survey reveals that four drivers have covered over 4,500,000 miles, together, without one traffic fatality, during a period of 20 years.

Bus drivers are given a thorough schooling; first, in the shop; second, in bus operations; third, in public relationship. The bus operators invest about \$2,000 in every driver in his preliminary training, and public relationship and the nation of good operators.

Buses are inspected when they come in from trips and when they go out. Bus drivers are not permitted to operate their buses more than 8 hours. Their home life is inspected unless they are physically fit when they report for duty.

ISSUE SCHEDULES

As has been the custom of the editor of this newspaper for several years, pocket size foot hall schedules have been issued for the use of Blue Devils fans again this season. The entire 1940 schedule is printed on a card just the right size to fit into one's purse. The cards may be found at the various drug stores and at Denton's hardware store.

New Sinclair H-C has Double-Range Anti-Knock

Take a look at the two speedometers above. They indicate the two important driving ranges where high anti-knock is needed. Some gasolines may give high anti-knock in one speed range but not in the other. However, the new Double-Range Sinclair H-C gives you high anti-knock in both. Ask a Sinclair dealer for Double-Range H-C today. It sells at regular price.

Ky., where he took his daughter, Susanne, to visit relatives.

Mr. and Mrs. Carroll McDonald and children, Harry and Alina, have returned to Belle Glade from Orlando, where they visited Mrs. J. C. Redlich.

ISSUE WARNING

Pahokee council issued warning to all residents who have not complied with the city sanitary ordinance which requires installation of water closets in all residences that violators will be subject to stiff fines and possible jail sentences.

HIGH WATER

High water due to recent rainfall in the upper Everglades has caused the water in the basin here in the Glades between Clewiston and Lake Harbor approximately three feet higher than the lake level and threatens to flood large sections of valuable farming land within the drainage districts all around the lake. The water has an outlet via the North New River canal.

TO RAISE FUNDS

At a meeting of the executive board of Methodist church this week plans were made to raise church funds. Members voted to continue the sale of the envelope system which was inaugurated three years ago. In addition to this system a financial statement of the church will be issued to all members every two months in order that they may keep posted as to the financial condition of the church. The following committee was named to be in charge of issuing statements: Frank Bogale, R. Elliott and John A. Duhany.

Vanns Celebrate 25th Wedding Anniversary

Mr. and Mrs. W. H. Vann celebrated their silver wedding anniversary with a dinner dinner at the Glades club last Thursday night. A delectable turkey dinner was served the guests after which dancing was enjoyed to the music of a West Palm Beach orchestra. Mr. and Mrs. Vann received many beautiful silver gifts.

Those who enjoyed the evening's entertainment and the hospitality of Mr. and Mrs. Vann were: Mr. and Mrs. Roy Segree, Mr. and Mrs. B. J. Barwick, Jeff Caffrey, Mr. and Mrs. C. L. Wilder, Mr. and Mrs. Jess Elliott, Thurmond Knight, Mr. and Mrs. Frank Bass, Mrs. T. T. Farrow, Mr. and Mrs. J. E. Cochran, Jr., Mr. and Mrs. Jerry Berry, Mr. and Mrs. Frank Hoover, Mr. and Mrs. L. J. Farrow, Elmer Rice, Miss Lucille Williams, Doyle Crocker, Mr. and Mrs. Luke Lynd, Mr. and Mrs. Thad White, Mrs. B. L. Starling, Mr. and Mrs. A. J. Ledeman, Mr. and Mrs. J. V. Fourny.

Mr. and Mrs. E. L. Pope, Mr. and Mrs. Brooks Bateman, Mr. and Mrs. Sam Chastain, Mr. and Mrs. H. B. Miller, Hugo Bow, Mrs. Christine Cochran, Mrs. M. L. Hughes, Paul Rardin, Mr. and Mrs. W. H. May, Mr. and Mrs. Rupert Stock, Mr. and Mrs. Sam McKinstry, Dr. and Mrs. William E. Young.

Liquor Dealers In

(Continued from Page 1)
pay \$600 this year instead of \$400 which was their former fee.

When the licensed dealer lives in a municipality the license fee is divided by giving the city or town one-half, the county one-fourth, and the state one-fourth. If the dealer does not operate in a municipality, the county receives one-half and the state one-half of the license fee.

The report of the annual audit of the State Beverage department showed that work by State Auditor W. M. Wainwright shows that collections by that department have nearly doubled since the fiscal year ending June 30, 1936. Collections for that year amounted to \$4,723,361 and for the year ending June 30, 1940 they totaled \$4,620,782. During the same time collection costs have been reduced from 12.1 percent in 1936 to 2.9 percent for last year.

Of the revenue collected the fiscal year ending June 30, 1936, the general revenue fund received \$2,540,761. The 1937 legislature transferred these collections to the State Welfare Fund for the payment of old age assistance and for the support of dependent children and the blind, with the surplus going to the county school fund. As no other revenue was substituted by the legislature for the general fund, the state has been hard pressed since the transfer was made to meet obligations and salaries payable from the general revenue fund.

The audit also states that the records of the department are accurately kept, all receipts properly accounted for, and the low collection cost indicates the department has been managed in an economical and businesslike manner.

To Keep Florida In The Eye of America After Fair Closes

Manager Brown Proposes to Continue Display In Many Cities.

World's Fair, N. Y. Sept. 19. If present plans are adopted Florida will not stop giving publicity to its resources and exhibits after the New York World's Fair of 1940 closes its doors at midnight, Sunday, Oct. 2, next.

The phenomenal increase in the number of visitors to the state both in summer and winter has been a result of at least in great part, from Florida's participation in exhibitions in "Chicago" 1923 and 1933, in "Rockefeller" Center in New York city during the winter of 1935-36, at the Great Lakes exposition in Cleveland, the expositions of 1936 and 1937, and at the New York World's Fair of 1939 and again in 1940.

At a meeting of the executive board of Methodist church this week plans were made to raise church funds. Members voted to continue the sale of the envelope system which was inaugurated three years ago. In addition to this system a financial statement of the church will be issued to all members every two months in order that they may keep posted as to the financial condition of the church. The following committee was named to be in charge of issuing statements: Frank Bogale, R. Elliott and John A. Duhany.

County Receives

269 Textbooks On
National Defense

Seniors Get Material for
Course In Applied
Math and Science.

Tallahassee, Sept. 19. The State Department of Education has provided 269 books related to national defense for the use of Palm Beach county boys who will graduate this year from high school. The book is the first of a series giving elementary instruction in general mechanics, engines, aerodynamics, radio, photography and the armed forces.

As quickly as additional copies can be printed the books will be available to the schools as public free texts to whatever extent plans are made for their use in each high school. Approximately 8,000 have been distributed throughout the state to make them immediately available to senior boys and to teachers of physics, chemistry, and mathematics.

The first book of the series includes 20 units of study about industrial tools and materials, and suggestions for extended study by school clubs or pupils who wish to dig deeply into the sections in which they are especially interested. It also includes a long list of related materials available free from the government or from industrial concerns, suggestions for school library purchases, and statements by the State Board of Education and the State superintendent concerning the responsibilities of school officials and teachers in national defense preparation.

The series contains applications from the regular school textbooks in science and mathematics. It is edited by Paul Eddy of the state department and Dr. J. H. Kuerer of the University of Florida. They were assisted during the summer by more than 20 teachers of mathematics, science, and industrial mechanics is paper bound with 271 illustrations, and is produced at an estimated cost to the state of 5 cents each.

Comptroller Looks For Payroll Cash

Tallahassee, Sept. 19. Lack of money to pay school teachers isn't the only thing that gives Jim Lee sleepless nights. There's the matter of several thousand state employees whose pay envelopes should have been filed promptly by the first of each month.

The general revenue fund, from which many employees are paid and from which much of the state's operating expense is paid, is currently more than \$1,000,000 in arrears. That figure is growing daily.

September 1 paychecks for many state employees were held up until the Florida Power & Light company paid \$100,000 of its taxes in advance. Now the comptroller's office is head-scratching about the October 1 payrolls. It isn't in sight and it isn't likely that it will be forthcoming on time, barring some kind of financial legwork.

By the time the 1940 fair closes, Oct. 27, more than 40,000,000 men, women and children, from not only every state of the American union but from practically every country on the globe will have seen Florida's exhibits and will have been made Florida conscious of the various phases of life in the Sunshine State and its outgrowth and opportunities from every point of view.

Arrangements are now being made, according to E. W. Brown, general manager of the Florida state exhibit, to keep up the good work through comprehensive displays at Cleveland, Detroit, Chicago, St. Louis and other midwestern cities. Mr. Brown is in connection with Frank Buck of "Bring 'em Back Alive" fame, Almon R. Shaffer, who managed "Old New York" at the fair last year and who is at the head of "Winter Wonderland" this year, both outstanding amusement enterprises, are planning to take on tour some of the best features of the 1940 World's Fair, including Florida dramatics and other displays which have made the Florida exhibit so attractive.

The hope is to carry the World's Fair of 1940 to the millions of Americans who for any reason could not or did not visit it at New York, thus keeping Florida to the forefront in the public mind.

750,000 annually in ad valorem taxes for state benefit, the commonwealth will be in far worse financial fix than is now the case; the annual deficit will approach \$6,000,000.

County Has Ample Number of Cafes

Tallahassee, Sept. 19.—(Special) Those who want to "eat downtown" are available in the 493 restaurants and cafes licensed to operate in Palm Beach county, according to W. M. Taylor, state hotel commissioner.

Combined capacity of the restaurants and cafes in the county is 18,897, Commissioner Taylor said. Each of the restaurants and cafes listed operates under strict health, sanitation and safety regulations of the state hotel commissioner.

Commissioner Taylor reported the current license year saw permits issued by the commission to 8,501 cafes and restaurants in the state. There had a combined seating capacity of 201,852 persons, he said.

Government Cost Increase 5 Times As Fast As People

Fact Finding League Tells of Continuous Increases.

Jacksonville, Sept. 19.—Per capita cost of state government has increased five times as fast as the state's population during the past five years, the Florida Tax Revision League declared here Wednesday in a prepared statement.

The per capita cost of state government increased 84 per cent in the past five years but the state's population increased only 17 per cent in the same period, the league said.

The figures were based on state government cost of \$16,475,552 for 1934 against the 1935 state census which gave the population as 1,606,842; and the 1939 state government cost of \$25,470,500 figured against the recent federal

census which gives the 1940 population as 1,877,791.

"It should be borne in mind," said the league, "that this \$30,470,500 is the cost of state government only. Complete figures on the cost of county, city, and other local units of government are not available. The total cost of state and local government has been estimated to be \$123,000,000—approximately 565 per capita.

"There is a generally accepted principle in business that as the volume increases, the cost per item decreases in direct proportion. This principle apparently does not apply to the cost of state government in Florida. In 1934, state government cost \$10.25 for each man, woman, child, white and black. In 1939 this cost had increased to \$18.89 per person—an increase of 84 per cent while population was increasing 17 per cent."

The first bale of sea Island cotton ginned at Leesburg last week brought 50 cents a pound, over \$200 being paid for the single bale. There were ten bales ginned the first day. Not all of it brought that premium but it brought prices more than three times the market price for short staple.
